

Contract

© 2007 Mechanization | www.mechanization.us

Wake the kids, stop the search, we've come to rock this Earth
All of your dreams and fantasies have been listened to and heard
Drop your sin, what's it worth, come to metal church
Close your eyes cuz it won't hurt, Mechanization brings much girth

We, can't, stop, this, me-tal, dream
Break the chains of industry and meet the dragon team
Thrash-ing, sounds, that, make, you, cream
Robotic drums and HMT, come to meat the terror scream

All of the pain that rests inside of me won't even touch the page
Crushing metal is an art, not therapy, so silence every complaint
I'm so sick of these pussy drama queens bitching about the blame
Stop crying 'bout your Daddy's love for you, listen to the words I say

We, can't, stop, this, me-tal, dream
Break the chains of industry and meet the dragon team
Thrash-ing, sounds, that, make, you, cream
Robotic drums and HMT, come to meat the terror scream

Some want to know how I turned out this way and how I beat the pain
Optimism is a chosen state of mind, so turn back from the grey
Dedicated to the force that's driving me, while choosing my own fate
How do I flow with maintained balance, I've got metal in my veins

Contract
I signed this, contract
We signed this, contract
A lifelong, contract... to heavy metal

We, can't, stop, this, me-tal, dream
Break the chains of industry and meet the dragon team
Thrash-ing, sounds, that, make, you, cream
Robotic drums and HMT, come to meat the terror scream

We, shall, break, these, chains
